

RoHS Compliance Policy

Truturn Precision Engineering (Charfield) Limited; a manufacturer of machined components that could potentially be used in products targeted for RoHS compliance, recognises our responsibility to assist you, our customer, in meeting your environmental policies and procedures.

Components manufactured by Truturn Precision Engineering (Charfield) Ltd are in compliance with the Directive 2011/65/EU and the amended Annex II – Directive 2015/863 of the European Parliament and Council on the restriction of the use of certain hazardous substances in electrical and electronic equipment (also known as “RoHS 3”) to be in force by 22nd July 2019. In addition, this declaration of conformity is issued under the sole responsibility of Truturn Precision Engineering (Charfield) Ltd.

Specifically, products manufactured do not contain the substances listed in the table below in concentrations greater than the listed maximum value.

Lead - (0.1%)

Exemptions in accordance with RoHS annex III –

6a) Lead up to 0.35% by weight in alloyed steel (for machining) and galvanized steel

6b) Lead up to 0.4% lead by weight in aluminium alloys

6c) Lead up to 0.4% lead by weight in copper alloys

Mercury - (0.1%)

Cadmium - (0.01%)

Hexavalent chromium - (0.1%)

Polybrominated biphenyls - (0.1%)

Polybrominated diphenyl ethers - (0.1%)

Bis(2-ethylhexyl) phthalate - (0.1%)

Butyl benzyl phthalate - (0.1%)

Dibutyl phthalate - (0.1%)

Disobutyl phthalate - (0.1%)

Truturn Precision Engineering (Charfield) Limited collects and maintains material certification/test results for our raw materials. Truturn Precision Engineering (Charfield) Limited has furnished this information in good faith to meet the needs of our customers.
